

BIG

Big Data Public Private Forum

Programme of the BIG Final Event Workshop

Co-located with ISC Big Data in Heidelberg

Workshop Website: <http://big-project.eu/finalevent>

The Big Project Results Session 1 (9:00-10:30)

The Big Project - Welcome and Introduction (9:00 -9:20)

Nuria De Lama (ATOS Spain)

Key Technology Trends for Big Data in Europe (9:20 - 9:55)

Edward Curry (Research Fellow at Insight @ NUI Galway)

Edward Curry is leading the Technical Working Group of the BIG Project with over 30 committed experts along the **big data value chain** (Acquisition, Analysis, Curation, Storage, Usage). With the help of the other technical leads, he will elaborate on the **key technology trends** identified in the BIG Project and how they bring **data-driven value** to industrial sectors.

Towards Big Data in Europe 2020: The BIG Roadmap (9:55 - 10:30)

Walter Palmeshofer (Open Knowledge Foundation)

The BIG roadmap is an integrated roadmap consisting of all aspects of the BIG project. The roadmap consists of the different sectorial roadmaps for healthcare, public, finance and insurance, telecom, media and entertainment as well as requirements elicited from each sector and mapped to the technological trends in Big Data.

The roadmap will be delivered to the European Commission as an input to adjust the future European research agenda. Walter Palmeshofer will present key statements of the roadmap and ask for feedback from the audience.

Towards a Big Data Public Private Partnership for Europe Session 2 (11:00-12:30)

The Big Data Public Private Partnership (11:00-12:00)

Nuria De Lama (ATOS Spain)

“A European public private partnership in big data could unite all the players who matter. Researchers, software makers, data intensive sectors, venture capitalists, and more.” Neelie Kroes, Vice-President of the European Commission¹

A major goal of the Big Project was to facilitate the Big Data Value Public Private Partnership (PPP) which has been approved. Official signature will be on October 13th by Neelie Kroes.

Nuria de Lama from ATOS Spain has been involved with www.bigdatavalue.eu and setting up the PPP. During her presentation she will explain what the PPP is and what impact it will have on Big Data in Europe.

Discussion (12:00-12:30)

Lunch (12:30-14:00)

Sustaining the Big Data Eco System (Session 3: 14:00-15:30)

Panel discussion about a common Big Data Stakeholder Platform (14:00-15:30)

Martin Strohbach (AGT International)

Panelists:

- The PPP Stakeholder Platform (Nuria De Lama, tbc or EC representative)
- Hardware and Network for Big Data (Adrian Cristal or Ernestina Menasalvas, RETHINK BIG EU Project)
- Tackling BIG DATA Externalities (Kush Wadhwa, Trilateral Research BYTE EU Project)
- The value of the Stakeholder platform (Sebnem Rusitschka, Siemens, BIG and BYTE Project)
